PROFESSIONAL SUMMARY

I am a university student majoring in Computer Science with practical experience in software development, problem-solving, and the creation of applications that rely on databases. I am proficient in Java, JavaScript, and the technologies associated with the MERN stack. I have experience in carrying out software projects, integrating with external services, debugging problems in applications, and using version control tools. I am looking for a position as a Software Developer in order to help in the development of reliable, maintainable, and efficient software solutions.

EDUCATION

Medi-Caps University, Indore

Bachelor of Technology (B.Tech) – Computer Science Engineering

2026 – Present

CGPA: 6.96/10

New Era Public Academy, Indore

Class XII – 80%

New Era Public Academy, Indore

Class X – 85%

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, HTML5, CSS3
- **Core CS:** DSA, OOP, DBMS, OS, CN
- **Software Development:** REST APIs, API Integration, Debugging, Software Testing
- **Frontend:** React.js, Next.js, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js
- **Databases:** MongoDB, MySQL, SQL
- **Tools:** Git, GitHub, VS Code, Postman

PROJECTS

Orchestrax – Multi-Agent AI Platform

Full-Stack / AI

- Built a multi-agent AI platform for document Q&A, code generation, research, and report generation.
- Developed using React, Node.js, Express, LangGraph, Qdrant, Redis, and MongoDB.
- Implemented RAG, intelligent agent routing, live web citations, and automated PDF/PPT generation.

Imagify – AI Text-to-Image SaaS Platform

MERN Stack

- Built a full-stack AI image generation platform using MERN, Tailwind CSS, and Clipdrop AI API.
- Implemented JWT authentication, credit-based usage, and Razorpay payment integration.
- Developed secure transaction verification and instant image preview/download functionality.

PROFESSIONAL SIMULATIONS

- **Datacom – Software Engineering Job Simulation:** Reviewed software implementations and identified root causes to resolve application issues.
- **Commonwealth Bank – Software Engineering Job Simulation:** Modified an existing .NET backend and React/Redux frontend, updated client requests, and implemented code testing.
- **Skyscanner – Software Engineering Job Simulation:** Developed a React web application, created a microservice, and built user-focused platform components.
- **HPE – Software Engineering Job Simulation:** Designed and implemented a RESTful web service, data-upload functionality, and unit tests.
- **JP Morgan Chase & Co. – Software Engineering Job Simulation:** Implemented REST API integration, backend controllers, H2 database integration, and Kafka integration.

CERTIFICATIONS

- MERN Stack Development Virtual Internship – EduSkills
- MERN Stack Development – Apna College (Delta)
- NPTEL Cloud Computing (Elite) – IIT Kharagpur
- Advanced Data Structures and Algorithms
